## CAMP DESCRIPTIONS

*Unless indicated otherwise, camps are one week, half-days, Monday through Friday*

### **#1201 Mudwumps Pottery Camp | Joan Rusek | 6–8**

Make masterpieces from messy mud on the potter's wheel, pinch and roll clay and turn flat slabs into fantastic fun and functional art. We will create 1-2 pieces of art each day of camp, with each week's work fired and available for pickup the following Friday. No projects will be repeated, so come one week or every week! Classes are Monday, Wednesday and Friday from 9:00 am until noon.

### **#1202 Art of Beaded Jewelry Camp | Kim Mettee | 8–13**

*Create Wonderfully Unique and Colorful Designs...*

Students can choose from a variety of contemporary and vintage beads and baubles in combination with recycled objects such as buttons and items found in nature. Students are encouraged to bring additional beads & interesting or sentimental items that they might wish to incorporate. Basic jewelry knowledge and skills are helpful but not required. Sign up for both morning and afternoon and make a day of it!

### **#1202 ART of Beaded Jewelry 3 Day Camp | Kim Mettee | 8–13**

*Join Kim for 3 jam-packed days to Create Wonderfully Unique and Colorful Designs*

Students can choose from a variety of contemporary and vintage beads and baubles in combination with recycled objects such as buttons and items found in nature. Students are encouraged to bring additional beads & interesting or sentimental items that they might wish to incorporate. Basic jewelry knowledge and skills are helpful but not required.

### **#1204 Prewumps Pottery Camp | Becky Frazier | 4–5**

This pottery camp is an introduction to the medium of clay. Campers will explore and create while meeting new friends. Big fun for little hands! Classes are on Tuesdays only for 6 weeks.

### **#1207 Glitter Camp | Emily English | 6–9**

A camp fit for royalty! Come to a week filled with glitter, jewels and plenty of pink! We will create traditional artwork such as paintings and drawings. Also, we will make paper dolls, fairy wands and much more! Of course, not everything will have glitter! But we will work with all things pretty!

### **#1209 Photography Camp I & II | Tessa Dicker | 10+**

Learn the basics of digital photography. Students will learn how to set their own film speed, aperture and shutter speed and how and when to use a flash. Explore taking action shots, landscape and portraits. In this class you will practice and apply what you have learned using your camera. Sign up for a second week of different projects and learn even more!

### **#1210 Travel the World Through Art Camp | Emily English | 6–9**

Every culture expresses art in a different way. Let's travel the world through different times and places and create! We will explore many different types of making art, learn about different cultures and create art in new and exciting ways. Europe, Asia, Africa, South America and Australia are awaiting us!

### **#1215 Nuts & Bolts Drawing | Kate Oulton | 11+**

Want to make your drawings look more realistic? This class offers the nuts and bolts of basic drawing techniques. We'll dive into how to build a solid drawing from the inside, out. Expect to build your skills in perspective, shading, measuring, proportion, and more, while trying your hand with a variety of drawing media. You'll have choice in your projects and will take home multiple pieces.

### **#1218 Nuts and Bolts Painting | Kate Oulton | 11+**

Learn the nuts and bolts of acrylic painting in this fun beginner-level camp. We'll cover color (of course), mixing, painter's tools, and painting techniques. We'll also cover composition, lighting, and how to "build" a painting. Students will create multiple pieces over the course of the week. Please wear paint clothes because acrylic is permanent and we will get messy!

### **#1219 Textile & Surface Design | Mary Urbas | 9–13**

This class will give the student hands-on experience in the different methods and techniques of applying images, colorants, and other surface embellishments to fabric. The finished fabric can be incorporated into quilts, wearables, home furnishings such as pillows, wall hangings and other unique projects. Experience the different methods of applying fabric dyes and textile paints including: block printing, stamping, hand painting, mono printing, tie dye and silkscreen printing. Use the silkscreen as a drawing and printing tool. Experiment with open screen monoprinting and hand cut stencil methods. There is a \$15 supply fee to be paid to the teacher the first day of camp. Student should bring a t-shirt.

### **#1222 Paper Mache and 3D Construction Camp | Kathy Venc1 | 9–12**

The camper will design and create 3-D sculptures incorporating different mediums such as paper maché, wire, recycled/found objects, various papers and paints.

### **#1223 Drawing and Painting Studio | Kathy Venc1 | 9–12**

This camp will focus on the traditional studies of art including color, design and composition. The student will be introduced to the Artist's Journal which is very useful for keeping track of new techniques learned, color charts and sketches of ideas covered throughout their day. Later, we will refer to our sketchbooks/journals to develop original compositions and studies. Students will need to bring a sketchbook to camp.

### **#1226 Pottery All About | Brigitte Fiorille | 9–15**

Give yourself a chance to create your own ceramic art. Learn to develop handbuilding and wheel throwing skills. Techniques in centering, opening, lifting, trimming, combining, and glazing will be covered. Every camper will learn at their own pace. All skill levels are welcome!

### **#1228 VAC Graphic Novels Camp | Ron Hill | 12+**

Do you create comix, with an X? Join up to 9 other teens and create a comic anthology in 5 days. Class will cover character and story development,

penciling, inking, and production with the goal to create a published volume of everyone's 1-to-4 page graphic story. The only supplies you need are a sketchbook and your creativity. Cost of each published comix book determined by how many participate, but probably not more than \$5 each book. Class size limited to 10. Don't wait to sign up!

### **#1229 "Trashion" Camp | Kate Oulton | 11+**

One person's trash is another person's...outfit? In this class, we'll create unique wearable creations from - you guessed it- trash! Students will practice 3D design/sculpture skills as they reimagine recyclables into fabulous styles! We'll be welcoming donations of old cereal box-type cardboard, plastic bags, newspaper, and just about anything else you think might be useful. Please make sure anything donated is CLEAN and NUT FREE.

### **#1230 Monoprinting Our Environment | Deb Pinter | 10+**

This class will introduce students to the general concept of printmaking, and the joys of using something other than a paint brush or pencil to create a piece of art. We will gather objects from our natural world and transform them into monotype prints. Through exploration of composition and materials (inks, papers and objects) we will create a series of prints that are both abstract and colorful.

### **#1231 It's NOT Just A Drawing Class | Deb Pinter | 10+**

This class will explore the fundamentals of drawing and painting through discussions, making, critiquing and exploring art. Draw from objects and develop your sketches into colorful compositions. Using viewfinders to consider compositional arrangements from a traditional still life set up to their imagination, students will be led on a colorful journey of exploration using pencils, paint and papers. Expect stunning results from this fun one week course.
